# WESTERLY BOARD OF TRADE MEETS

Special Committee on Change of Main Street Grade Reports-Fire District Needs Considered-Importance of Today's Financial Town Meeting-Getting Ready For Improvements on Fawcatuck Valley Line-Saunders York a Blacksmith 67 Years.

The annual financial town meeting, the most important of the year, will be held in the town hall foday (Tuesday). It is probable that there will be a larger attendance of taxpayers than usual. While the reports of town officials and the making of appropriations for the expenses of the ensuing year are of importance, they seem to be overshadowed by the proposition to change the grade of Union street, or the cutting down of Cookey hill, upon the summit of which is the town hall and the fire house of the Westerly fire district.

Providence Westerly's membership on the roll of the convention is composed of Judge John W. Sweeney as state advocate and Dr. John M. O'Connell and Martin H. Spellman, representing Narragansett council the oldest and largest in the state. State Deputy Joseph F. Cole, who will preside at the convention, has positively declined redection after three years of satisfactory that the cutting down of Cookey hill, upon the summit of which is the town hall today (Tuesday). The roll of the convention is composed of Judge John W. Sweeney as state advocate and Dr. John M. O'Connell and Martin H. Spellman, representing Narragansett council the oldest and largest in the state. State Deputy Joseph F. Cole, who will preside at the convention, has positively declined redection after three years of satisfactory to the visual proposition to the cutting down of Cookey hill, upon the summit of which is the town hall the fire house of the Westerly's membership on the roll of the convention is composed to Judge John W. Sweeney as state advocate and Dr. John M. O'Connell advocate and Dr. John M. O'Con

on the apex near the town hall. This committee made report at a special meeting of the executive committee of the board of trade. Monday evening. Through the efforts of this committee the town council authorized the survey, plat, profile, cross section and estimates of cost, which will be presented at the town meeting for the general information of the taxpayers, as none other is privileged to vote in s none other is privileged to vote in nancial town meeting. There was considerable quiet work

There was considerable quiet work being done Monday to interest the taxgayers in all sections of the town in this proposed improvement. There is some objection, however, on the ground that the cost for the change of grade would be too much of an expense for the town to assume at this time, although the physical conditions were never more favorable than now, due to the willingness of two of the largest property owners to assist in the work and make no claim for damages, and the absence of the buildings on the Broad street ascent of the bill by reason of the Welch fire.

It would be no surprise if the town meeting became a decidedly lively session and that there would be a fight on when the change of grade in Union in when the change of grade in Union treet came up for consideration.

### TIZ-For Sore Feet

Tired, Aching, Swollen, Smelly, Sweaty Feet? Corns, Callouses or Bunions? Use TIZ. It's Sure, Quick And Certain.

Ar last here is instant relief and a string, permanent cure for sore feet. The more acking set. No more awollen, bad smelling, weaty feet. No more corns. No more unions. No more callouses, no matter that alls your feet or what under the un you've tried without getting relief, use use TIZ. what and your feet or what under the sun you've tried without getting relief, hast use TIZ.

TIZ is totally unlike anything else for the purpose you ever heard of. It's he only foot remedy ever made which acts on the principle of drawing out ell the poisonous exudations which causes ore feet. Powders and other remedies nerely clog up the perce. TIZ cleanses hem out and keeps them clean. It works right off. You will feel better he very first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. TIZ is for all at all druggists, 25 cents per box, or direct if you wish from Walter Lather Dodge & Co., Chrago, III.

Frank W. Coy Real Estate Co., feblid Westerly, R. L.

The plan Avored by the direct advocates of the change of grade, which is represented by a committee of the Westerly board of trade, provides for a one per cent, grade from Broad street to the town half, and from there Main street a three per cent grade, with likes from Westerly to Main street a three per cent grade, which means a cut of about nine feet in the apex near the town hall. This ourmittee made report at a special more than the executive committee of the executive committee of the executive committee.

> At the recent special meeting of the Westerly fire district two weeks ago, called for the consideration of bettering the fire department, Charles Perry,

The annual session of the Knights of Columbus of Rhode Island will be toon. At the Monday evening session the special committee on the change of the special committees that will be reported to the next regular meeting for account to the special committees that will be reported to the next regular meeting for account to the special committees that will be reported to the next regular meeting for account to the special committees that will be reported to the next regular meeting for account to the special committees that will be reported to the next regular meeting for account to the special committees that the special committees the special committees that the special committees the special committees the special committees the specia Thomas Hope, reported that they had onsulted with abutting property ownas definitely known how much of

The only way to ascertain this in street made showing the contemplated changes. The committee explained the conditions to the Westerly town council and that body voted to have a survey made. This has been done and the plans will be explained at the financial town meeting today.

The executive committee was in session nearly two hours. There was a general discussion of the proposed change of grade from all viewpoints, the debate at times being quite spirited. Charles Perry and Ira B. Crandall were appointed a committee on behalf of the board of trade to present the matter at the financial town meeting.

Chairman Charles Perry presided and the proceedings opened with the exhibit of a large map of the fire district which was stretched on a table. It was so arranged as to indicate the location of the present seventeen fire alberts by the desired to the bore of the Borough—Sewer laberts by the deficiency of the Borough—Sewer laberts by the deficiency of the Borough—Sewer laberts made to the content of the borough—Sewer laberts made to the twenty-one-foot water line knockabout Spartan. It will be used for cruising rather than racing. The Spartan is a Lawley designed and built cruiser, 33 feet on deck and 8 feet beam.

William J. Tanner purloined the horse and wagon belonging to Henry Station of North Stonington Sunday afternoon, and took a pleasant drive. The horse was stabled in Pawcatuck Sunday night, where it was delivered to the borne. Deputy Sheriff Casey arrested Tanner Monday merning, arrested Tanner Monday merning arrested Tanner Monday merning arrested Tanner Monday merning arrested Tanner Monday merni

alarm boxes in the old district and th he regular system which was explain d by Civil Engineer McKenzie.
William St. Onge, a delegate from
the Alert Hook and Ladder company

uggested that two additional fire bells be added to the system, so that the fremen can better hear the alarms. higher John I yuch suggested that the bell

piaced in a skeleton tower and be-ved that would greatly benefit the ficiency of the fire alarm. Chief Engineer Cottrell said that the present fire alarm bell was sup-posed to cover too much territory. F. C. Buffum suggested that the ommittee give consideration to the advisability of securing a chemical en-

Chairman Perry asked as to the ad-isability of removing one of the pres-nt hose wagons to Quarry hill. Chief ottrell said that with a pair of horses he wagon can reach Quarry hill in mick time, and believed it to be adisable to retain them in the present nighte house in order to be more central. He said that a chemical engine hight be used to advantage on the ill.

Mr. McKenzie said that the location

of the nine additional fire alarm boxes would give the same protection in the annexed section that is now given the Chief Cottrell advocated a three-circult system instead of the present as a matter of usefulness as well as economy, and that a storage battery system was really necessary. All departments are changing from the jar to the storage battery system. He said that he did not think it necessary to remove one of the present fire companies to Quarry Hill. Already there is a hose curriage at the hill and it was his intention to place a larger one his intention to place a larger one there and supply it with more hose. In response to a query from Mr. Perry, the chief said that the service would be improved if the hose car-riages in the sheds in certain localities

## One May Overcome

constipation permanently by proper personal co-operation with the beneficial effects of Syrup of Figs and Elixir of Senna, when required. The forming of regular habits is most important and while endeavoring to form them the assistance of Syrup of Figs and Elixir of Senna is most valuable, as it is the only laxative which acts without disturbing the natural functions and without debilitating and it is the one laxative which leaves the internal organs in a naturally healthy condition, thereby really aiding one in that way. To get its beneficial effects, buy the genuine manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists. Syrup of Figs and Elixir of Senna is never classed by the well-informed with medicines which make extravagant and unfounded claims to cure habitual constination without personal toonProtect Yourself!

were run out when there are fires in the sections where these are located.

F. C. Buffum asked if it would not be well to have men trained to handle the hose in these outlying fire stations. The chief said that would be hardly possible, as over fifty per cent. of the firemen reside outside the first district. At present the double-hitch hose wagon can reach Quarry hill in seven minutes, in time to connect with any hose that may be stretched from the lines reel located there.

Mr. Lynch said that what was most Mr. Lynch said that what was most

mr. Lynch said that what was most needed on Quarry hill was an increase in the water pressure. Judge Edward M. Burke believed this could in part be remedied by having a steam fire engine located on the hill.

Mr. McKenzie stated that there was a private hydrant at the Smith gran-ite works which would send a stream over any building on the property, and in the hydrant near the standplpe there must be at least a hundred feet head

Mr. Buffum asked if it would be actical to have fire extinguishers to cated in the outlying section, as an aid to the department. Chief Cottrell was of opinion that such a thing might help some, but that a chemical fire engine would be more effective.

The committee then went into exec
